

# Communicating Science to the Public Effectively

Mid-course evaluation and feedback

Oct 25, 2010

## **Content**

What parts of this course are working for you? What parts aren't working for you? What would you improve? How helpful are discussions? Activities? Guest speakers?

## **Guest Speakers**

Which guest speakers have been most helpful and why? Do they add or detract from the course? Please provide any specific feedback about individual speakers.

## **Logistics**

What works and doesn't work about this classroom? Is the class too long? Too short? Should it be more frequent with shorter sessions (e.g. 2 times a week for 1.5 hours)?
